Shrinkage on Grain. Grain shippers are making complaints now against the system of grain stealage by the elevator proprietors. In all other cities excep-Chicago the holder of grain stands a certain per cent. for shrinkage; but the elevator men at Chicago not only take all imaginary shrinkage from the shipper, but are allowed to fix their own standard, and take enough to satisfy themselves. An honest shipper con-fesses that his shortage on one hundred and twenty cars of corn, shipped to Chicago during the past season, averaged seven bushels to the car, and that his total shortage for the same time on all grain was twenty-two hundred bushels and over, and that his shipments 25 Cases Men's Arctic Overshoes; to Chicago were at an end.— Sandusky Regis-

The ground of complaint is that Mr. Despomier was employed to make the usual decorations at the Custom House, and did so to the extent of \$65. Since that time Mr. Despomier has been grieved to notice that nothing has been said about pay. Under this state of feeling, Judge Warmoth, the party who employed him, narrowly escaped the indignity of an arrest, and had he not disappeared so suddenly as he did, would have been made to show cause why he should not have paid for the debts he had contracted.
